SUSANNA SAADI

PROFILE

Hello, my name is Susanna and I am from Estonia. Currently I am studying at Tallinn Polytechnic school and looking for opportunities in development industry.

I have finished courses on development and am currently studying development in Tallinn Polytechnic school through session study. I feel that I am ready for junior developer role and am open for connections. Please find my portfolio page:

www.susannasaadi.computer.

There you can find some projects that I have worked on during my studies, using modern development frameworks and techniques. I am constantly striving to improve and learn new frameworks, clean code methodologies and development patterns.

I am very excited to hear and help resolve any challenges you may be facing in your projects.
